

ADDITIONAL DETAILS FEATURE FOR PPAP MODULE

Supplier User

PPAP VIEW PAGE

- The **supplier user** can find the new accordion in the PPAP View page called '**Additional Details**'.
- This accordion consists of questions which the **supplier user** must answer before submitting documents for PPAP Elements.

The screenshot displays the PPAP View Page interface. At the top, the user is logged in as Jason Taylor (autoproducs). The breadcrumb trail shows Home / Workflow / Amend. A progress bar indicates the current status is REQUESTED, with previous stages being NEW, DRAFT, and IN PROGRESS, and subsequent stages being REVIEW PENDING, APPROVAL PENDING, REJECTED, INTERIM APPROVED, APPROVED, CLOSED, and CANCELLED. Below the progress bar, there are buttons for 'Update Elements' and 'Request Date Change'. To the right, there are links for 'Status history', 'Action', and 'Reply'. The main content area shows 'MPART2 - (67162-X7G02) - MPART2' with a link to 'Click here to view PPAP details'. A section titled 'Additional Details' is highlighted with an orange border. Below this, there are tabs for 'Elements', 'Reference Materials', and 'Upload Document'. At the bottom, a legend for 'Submission Requirements (REQ)' is provided: Not Required (orange X), Required (green checkmark), As Requested (blue pencil), and If Applicable (purple A).

Additional Details

- First one is a **Yes/No** type question, for which the **supplier user** can select the desired answer by clicking on the checkbox next to options.
- Next three questions requires the **supplier user** to select a '**From**' and a '**To**' date separately for each.
- The user will get a calendar dropdown after clicking on a date filed from where they can select the desired date for the respective question.
- Clicking on '**Save**' will submit the responses.
